📁 Portfolio

Profile

Full Stack Developer with strong proficiency in Java, Spring Boot, JavaScript, React, and React Native. Skilled in building scalable web and mobile applications with clean, efficient, and maintainable code. Experienced in developing responsive user interfaces, RESTful APIs, and backend services with a focus on performance and user experience. Passionate about problem-solving, learning new technologies, and delivering high-quality software solutions in collaborative team environments.

Education

Golden Bell Public School <i>Matriculation (CGPA: 7.5)</i>	Jan 2018 – Feb 2020 <i>Nalanda, Bihar</i>
S.U College <i>Intermediate (CGPA: 7.2)</i>	May 2020 – Jun 2022 <i>Nalanda, Bihar</i>
Subharti Institute of Technology and Engineering <i>B.Tech(Computer Science) (CGPA: 8.2)</i>	Jun 2022 – Jun 2026 <i>Meerut, UP</i>

Technical Skills

- Languages:** Java, JavaScript
- Frameworks:** React, Spring Boot, React Native
- Platforms:** Vercel, Render
- Tools:** GitHub, Vercel, Netlify, IntelliJ IDEA, VS Code

Projects

MedCare HMS Oct 2025

- Developed and maintained the MEDCARE Hospital Management System (HMS) using React, Spring Boot, and MySQL.
- Built responsive, user-friendly interfaces for hospital operations, including patient management, appointment scheduling, billing, and medical records.
- Designed and integrated RESTful APIs using Spring Boot to enable secure, efficient communication between frontend and backend systems.
- Managed MySQL database operations and optimized queries to improve performance and ensure data reliability.
- Collaborated with team to implement scalable features, debug issues, and enhance overall application functionality and user experience.

ShoopLoom Jan 2025

- Developed a full-stack e-commerce application, ShopLoom, using React, Spring Boot, and MySQL.
- Implemented responsive frontend components for product listing, shopping cart, wishlist, and user authentication, enhancing user experience across devices.
- Built secure, scalable backend services with Spring Boot, including RESTful APIs for product management, order processing, and user operations.
- Designed and managed MySQL databases for efficient handling of product, customer, and transaction data.
- Optimized performance, delivered clean UI design, and ensured seamless integration between frontend and backend systems.

Certifications

- Coding Shuttle SpringBoot Certification:** Completed Spring Boot certification from Coding Shuttle with hands-on training in building RESTful APIs, backend development, database integration, and application architecture using Spring Boot. Gained practical experience in developing scalable backend applications, implementing CRUD operations, connecting MySQL databases, and following industry-standard development practices. Strengthened understanding of Java backend development, dependency injection, MVC architecture, and API testing. [Certificate](#)
- HackerRank React Certification:** Earned the Frontend Developer (React) certification from HackerRank by successfully demonstrating proficiency in React development concepts, component-based architecture, state management, JavaScript fundamentals, and responsive UI development. Validated skills in building interactive web applications, problem-solving, and writing efficient frontend code following modern development practices. [Certificate](#)

Achievements

- NPTEL Elite Certification – Cloud Computing:** Successfully completed the Cloud Computing certification course offered by NPTEL and coordinated by Indian Institute of Technology Kharagpur. Achieved Elite certification with an overall score of 85% and secured a position among the Top 5% performers nationwide. Gained strong understanding of cloud computing concepts including virtualization, distributed systems, cloud service models (IaaS, PaaS, SaaS), resource management, scalability, and cloud infrastructure. Strengthened knowledge of modern cloud technologies and industry-oriented computing practices.
